

Automated Startup

Auto Lititions

litigations → solved.
Corporate law = solved.

Start up (growth)² Experimented.

feedback loop
x → tracked

(Start up) merged consequences.

Corporate 'merger' support

First I need to find a way to solve it
for myself to allow me to understand
the consequences if it were to be
possible. How should / would.

{ 'me' on 'my' solving } it for somebody else.
{ 'system' - 'complex' } be financially structured

So in essence, I should be able to
comprehend ~~the~~ and simulate/hypothesize
about current scenarios →

→ the existing ^{'world view'}

What's good for humanity

Progress → wellness

Derivatives: Consequences
Stim + Productive corporate Stim

Exploring consequences. alone & together
→ how?
